Dear Friends:

We have reached a milestone: 5 years of service to the students of Fairfield County completed! Fairfield County College Bound continues to provide college access services to individuals in Lancaster and Fairfield County in an effort to ensure that students have everything needed to enroll in, and thrive in, college.

The community need for post-secondary involvement is great. The Lumina Foundation estimates that 64 percent of Ohio jobs will require a postsecondary credential by 2020. Ohio is the seventh largest state, yet it ranks 36th in educational attainment.

This important work cannot be done in a vacuum. It takes the entire community to recognize its responsibility to ensure that students get to and through college. In this report, you will see how Lancaster and Fairfield County are stepping up to support students through the college-going process.

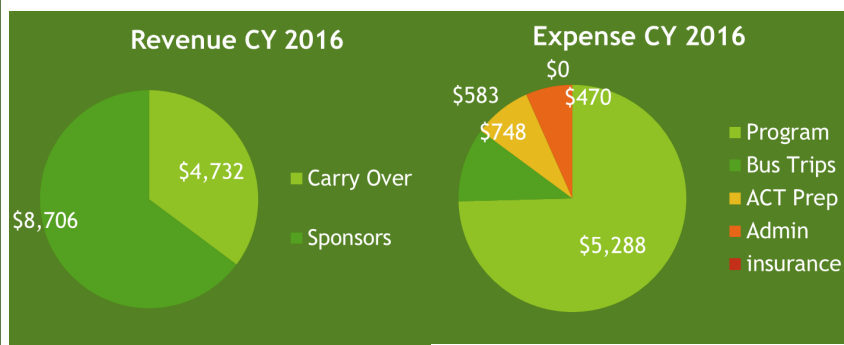

As always, we are deeply appreciative of all of our partners, and we look forward to our continued partnership as we work to assist Fairfield County residents in understanding the value of higher education while linking them with resources and opportunities to access and pursue it.

Sincerely,

David

David Uhl, PhD
 Chairman

2016 Financials

THE PLACE TO BE

Calendar Year 2016 At A Glance

432 meetings with 227 students
(144 LHS / 83 BUHS)
