“My parents did not go to college, but they knew of my strong desire to attend and tried to help me in any way they could. I connected with Fairfield County College Bound, and Mrs. Elick provided me with some advice about financial aid and how to apply to college. She was extremely helpful in assisting with the planning of my college future. I believe that the efforts of Fairfield County College Bound were vital and the knowledge and care passed along go a long way in helping ensure success” James C. Student.
